Interim Computer Science Teacher

The Madeira School is an independent boarding/day college prep high school for girls with more than a century of delivering on its mission of launching women who change the world. Located just outside of Washington, DC, on the banks of the Potomac River, in McLean, VA, Madeira enrolls 325 students in grades 9-12.

The Madeira School is seeking a Long-Term Substitute who can teach Computer Science in combination with Math and/or Science to join its faculty in January. The term is anticipated to be January through June. This time frame is approximate in nature and may be modified to fit the needs of the School. The successful candidate will support and achieve the School's mission and vision by effectively facilitating learning in student-centered college preparatory classrooms.

Responsibilities:
- Have the content knowledge and intellectual flexibility to teach a range of students in a variety of classes. Classes will include computer science in combination with math and/or science
- Manage a standard load of two academic blocks of teaching per module
- Plan and prepare innovative and rigorous instructional content within the parameters of established, written courses; teach research skills and score research-based assessments; utilize the department's rubric to grade student work
- Work collaboratively with a team of faculty, colleagues, administrators and parents
- Maintain accurate student records such as grades and comments and communicate such data in accordance with the Academic Calendar and School expectations
- Know how girls learn and use this knowledge to guide instructional and curricular decisions; apply principles of mind, brain and education science when teaching, developing curriculum, and assessing student learning
- Support and act in accordance with the school's mission and values

Requirements:
- Teaching experience required
- Bachelor's degree required, Master's degree preferred (degrees in related subject matter preferred)
- Ability to demonstrate growth mindset, optimism, and belief that all students can learn required
- Ability to innovate and think creatively about education
- Ability to make contribution to the School outside one's academic department, including to activities program, residential program, and interdisciplinary offerings
- Ability to use and adapt to a wide-array of technology as tools to support and deepen student learning and instruction
- Ability to be a practitioner of diversity, equity and inclusion
- Uphold the School's professional standards including punctuality, courtesy and discretion
